VAN SANT MAY OBTAIN HONOR

Minnesota Man Likely to Be Head of Grand Army.

STRONG ELEMENT FAVORS HIM

Former Governor of the North Star State the Leading Candidate for Commander-in-Chief of the National Organization of Civil War Veterans. Atlantic City May Get Next Encampment.

Salt Lake City, Aug. 11.—Sentiment at the national encampment of the Grand Army of the Republic is regarded by a strong element as favorable to Samuel R. Van Sant of Minnesota for commander-in-chief. Atlantic City also seems in the lead as the place for holding the 1910 encampment.

Nevertheless the friends of Judge William A. Ketcham and the advocates of St. Louis will not concede defeat. The election will be held Thursday.

The convention seekers and supporters of candidates worked hard, but the thousands of old soldiers in the city had more important matters to attend to. "If amusement interferes with your business, cut out the business," is the motto of the veterans, and they are living up to it. The encampment is, first of all, a holiday and the visitors do not allow their dignity as warriors to spoil their splashing in the lake, their rambling amid historic scenes and their postcard signal service to distant friends. Thousands of veterans and the army nurses were entertained free of charge by the management of the Saltair pavilion at the lakeside. Other thousands put in the day seeing the sights of the city.

The Association of Union Ex-Prisoners of War held their business session with National Commander Harry White of Pennsylvania presiding. Executive councils of the Woman's Relief Corps and other auxiliary bodies also devoted a part of the day to routine labor.

Under the vast dome of the Mormon tabernacle the Grand Army and the auxiliary organizations were welcomed to Utah by Governor William Spry and to Salt Lake City by Mayor John S. Bransford. Commander-in-Chief Henry Nevius replied.

Campfires were held at the assembly hall and the armory. These were followed by a gorgeous display of fireworks on Ensign peak.

FOR COEUR D'ALENE LANDS

Judge Witten Completes Drawings in Idaho.

Coeur d'Alene, Ida., Aug. 11.—Judge Witten has completed the drawing for the Coeur d'Alene reservation. There was not the same enthusiasm as was manifest on the first day, probably due to the fact that members after 15,000 are considered of little value.

Many persons called at the land office to confirm the announcement that they had won. The first rejection of an application occurred when the name of A. D. Boughman of Charlotte, Mich., was read. It was rejected on the ground that the notary public did not specify that he was authorized to make out papers for land drawing. Out of the 3,000 drawn this is found to be the only one not properly executed.

Word from the camps of the appraisers who are on the Coeur d'Alene reservation state that the land will be appraised in plenty of time for filing in August, 1910.

Next Monday the drawing for Spokane reservation begins.

TURKEY IS DISSATISFIED

Reply of Greece to Her Notes Not to Her Liking.

Constantinople, Aug. 11.—The Greek reply to Turkey's notes concerning Crete has been received and will be discussed by the cabinet ministers today. It is reported that the government is dissatisfied with Greece's answer and will recall her minister from Athens on an indefinite leave of absence.

The boycott against Greeks and Greek goods is extending in the provinces.

"How can you possibly reconcile your previous statements with your present opinions?"

"I don't want to reconcile 'em," answered Senator Sorghum. "My desire is to keep them so far apart that they can be considered as strangers."—Washington Star.

BUT ONE CONFERENCE HELD

Peace Negotiations Dragging in Chicago Strike.

Chicago, Aug. 11.—Peace negotiations in the street railway situation in this city dragged during the day. Only one conference was held between the union men and the officials of the companies and this resulted in nothing more than a postponement of the final issue.

Both sides are fighting to get all the advantage they can out of the situation. According to Walter L. Fisher, the city's representative in the conference, nothing has arisen so far that leads him to think that the trouble will not be settled amicably within a few days.

Woman Burned to Death.

Toronto, Ont., Aug. 11.—An unidentified young woman was burned to death, another was severely burned and property damage of \$50,000 was caused by a fire that swept through Hanlon's Island, a pleasure resort two miles across the bay from Toronto.

SUMMER RESORT SWEPT BY FIRE

Business Section and Hotels Are Destroyed.

New York, Aug. 11.—A disastrous fire swept through the heart of Monticello, a famous summer resort, and the county seat of Sullivan county, according to a dispatch to the New York American. The dispatch says that the business section of the town has been destroyed, together with hotels and boarding houses, driving hundreds of summer residents into the streets.

Ald was summoned from Middletown, Port Jervis and Liberty, but at last accounts it was reported that the flames were still gaining headway.

The town was cut off from outside communication by the burning of telephone and telegraph wires and a shortage of water made the firemen, who were aided by summer residents, practically powerless.

The flames originated in a power house in the rear of the Palatine House and swept quickly up the main street, sweeping practically everything on both sides in its path for a distance of half a mile. The Mansion House, a hotel, was destroyed, as was the Palatine.

From the meager information which reached here, the village was practically gutted and dynamite alone served to check the flames in places.

Monticello is a famous summer resort and while it has a normal population of about 2,000, this number is greatly increased by those who make their summer homes there.

TERRORIZED BY ELEPHANT

People of Clay Center, Kan., Chased Off the Street.

Clay Center, Kan., Aug. 11.—For two hours the people of this town were terrorized by eleven elephants which escaped from a show and stampeded through the streets.

The trouble started when a small dog bit at the heels of one of the elephants. The elephant at once began to trumpet and breaking from its keeper, ran away. The other ten elephants followed. Before the elephants were finally captured, a showman was knocked from a horse and seriously hurt.

During the excitement the people of the town kept off the streets.

Shot by a Former Convict.

Middletown, N. Y., Aug. 11.—Daniel A. Fenton, proprietor of the Elberton hotel here, was shot and fatally wounded on the street. His assailant, believed to be an ex-convict named McSorley of New York, after sending two bullets into Mr. Fenton's body turned the revolver on himself and inflicted a fatal wound in his head. Fenton said he once sat on a jury that sent McSorley to prison.

No Clue to Murderers.

Rochester, N. Y., Aug. 11.—Neither the inquest into the murder of Anna Schumacher nor the search that has been continued by county and city police officers has afforded anything like a substantial clue to the men who assaulted and brutally killed the seventeen-year-old girl last Saturday near Holy Sepulcher cemetery.

SHOWS MEMORY TO BE VERY GOOD

Mrs. Rose Sutton Parker on Witness Stand.

ON INTERVIEW WITH ADAMS

Sister of Young Oregon Officer Recollects Several Points That Lieutenant Adams Fails to Remember—Positive in Her Statements as to What Was Said.

Annapolis, Md., Aug. 11.—Mrs. Rose Sutton Parker, whose testimony has been looked forward to as of surpassing interest in the death on Oct. 13, 1907, of her brother, Lieutenant James N. Sutton, Jr., was the center of attraction at the session of the court of inquiry. She took the stand smilingly, was a willing witness and demonstrated clearly that her memory of her interview with Lieutenant Adams shortly after her brother's death was much better than was the recollection on the same points of Lieutenant Adams.

His testimony as to what was said during this six-hour interview was very largely "I do not remember" in character.

Mrs. Parker was positive in her statements as to what was said and done. It was notable from her testimony that whether or not Adams and Sutton were friends, Adams and Mrs. Parker parted most amicably after a little dinner party lasting a couple of hours and ending about midnight at a local restaurant at which Adams was one of Mrs. Parker's guests. It was remarked, too, that Mr. Birney, counsel for Lieutenant Adams, did not press Mrs. Parker to any extent on cross-examination. Indeed it may be said that this feature of the day was a distinct disappointment and Mrs. Parker herself expressed afterward as having been one of the most keenly disappointed. She said that she had expected to be able to say a great many things to Mr. Birney that her own counsel could not bring out on direct examination.

There was a period of recalling witnesses during which Colonel Doyen, commandant of marines, Lieutenant Willing and Lieutenant Adams again took the stand. The two first named cleared up points of minor importance.

Lieutenant Adams was grilled for a time by Mr. Davis. He was made to lie on the big table about which the court sits, and pantomime the firing of the fatal shot.

In his demonstration he used an unloaded service revolver and as he illustrated it, the bullet must have entered Sutton's head at a different point and from a different direction than was indicated by Surgeons Cook and Pickrell. As Lieutenant Adams pointed the weapon the ball would in all probability have come out of the lieutenant's forehead from the back of the head. Surgeon Cook testified that the course of the bullet was downward and backward.

YOUNG FINANCIER JAILED

Involved in Deal That Nipped F. Augustus Heinze.

New York, Aug. 11.—Donald L. Persch, an ambitious young financier whose offices constituted merely desk room in a down town note broker's office, is in the Tombs in default of \$50,000 bail and thereby hangs a tale of tangled finance through which somebody in Wall street nipped F. Augustus Heinze, one-time copper king, for \$40,000. Persch is charged with the larceny of \$40,000, a profit obtained by the sale of 15,600 shares of Ohio Copper common, and 4,600 shares of Davis-Daly copper common, which an agent for Heinze placed with the Windsor Trust company of this city as security for a loan of \$50,000. In the same manner, as yet unexplained, the stock was not held by the bank, but was turned over to a clerk acting for Persch and at the latter's orders, thrown on the curb market and sold for approximately \$90,000. How Persch obtained the capital to carry through the deal, and why the stock was relinquished by the trust company are points to be cleared.

The Prussian Versailles.

Potsdam is the Prussian Versailles and contains four palaces. It was founded by the great elector of Brandenburg, but owes most of its splendor to Frederick the Great, whose apartments, which are shown to visitors, remain almost exactly as they were when he was alive. Among the most interesting treasures is a copy of Frederick's works annotated in the handwriting of Voltaire.

COLONEL ALBERT POPE DEAD

Pioneer Bicycle Manufacturer Passes Away.

Boston, Aug. 11.—Colonel Albert A. Pope, the pioneer bicycle manufacturer of the United States and well known as one of the first advocates of the existing good roads system, died at his summer home in Cohasset. Colonel Pope had been in ill health for months, due to the breakdown of his nervous system, which followed the financial embarrassment of his company, the largest concern of the kind in the country, which had its headquarters in Hartford, Conn.

Albert A. Pope was born in Boston, Mass., May 20, 1843. He started his business career as a clerk in a local shoe findings store at \$4 per week. In 1876 the first imported bicycles began to make their appearance in this country and Colonel Pope, seeing an opportunity, decided to start manufacturing wheels. The venture proved a success from the start. A craze for bicycles, that even the high price of the early machines could not stem, swept over the country and in the very first few years of his business Colonel Pope amassed a fortune. The sudden drop in the bicycle boom a few years ago, however, caused him financial embarrassment.

Motorcyclists in Contest.

Columbus, O., Aug. 11.—Seventy-six motorcyclists arrived at the Great Southern hotel from Cleveland with a perfect score out of 97 starters. Their greeting by the farmers along the route exceeded the rural reception of recent Glidden tours, it is said. The route was very severe and sandy.

JUDGE DESIRES TO DO MANUAL LABOR

Former Wisconsin Jurist Abandons Law Practice.

Kenosha, Wis., Aug. 11.—Former Judge Joseph R. Clarkson of this city, who wandered away from home last month under the spell of a strange impulse which drove him to manual labor and who was found after weeks of search working in a factory in Sabula, Ia., gave up the profession of law Tuesday. Today his name will go on the payroll of a manufacturing firm in Kenosha.

"Give me a place where I can do manual labor," he told his friends. "I want to work with my hands and enjoy the pleasure of the man who is absolutely engaged in the production of something of a tangible nature. While I am improving my muscles I also will improve my mind with the ultimate view of entering the work of the church. I ought to be able to earn \$3 or \$4 a day in a short time." Formal dissolution of the law partnership of Mr. Clarkson and Robert V. Baker has been announced.

Mankind subsists to a great extent upon the seeds of plants. Of course all the grains are seeds. Likewise the nuts are all seeds. There are other seeds, and many of them, by no means so familiar as a diet which nevertheless contribute largely to the support of human beings.

MINNESOTA MAN HIGH GUN

Guptill of Aitkin Defeats Professional Marksmen.

St. Paul, Aug. 11.—On the first day of the regular programme shoot of the Western handicap tournament in this city, R. D. Guptaill of Aitkin, Minn., an amateur who once won the Grand American handicap, was high gun with a total of 169 out of 175 birds. Sam Hamilton of St. Paul and Sam Huntley of Omaha, both amateurs, tied for second place with 167 each, while Hicks of Fairmont, Minn., the third amateur, tied Fred Gilbert of Spirit Lake, Ia., the highest professional, with 166 birds. The amateurs outclassed the professionals. There were twenty-three professionals and 153 amateurs in the contest.

IN NATION'S HALL OF FAME

Statues of George Washington and Robert E. Lee Placed.

Washington, Aug. 11.—Bronze statues of George Washington and Robert E. Lee, Virginia's contribution to the nation's "Hall of Fame," have been placed in Statuary hall at the Capitol. Formal ceremonies attending the unveiling will take place at some time yet to be determined.

Both statues are beautiful works of art. Lee is pictured in the uniform of the South and his statue stands between those of Robert Fulton, inventor of the steamboat, and J. L. M. Curry of Alabama.

Washington's statue was placed in the southeast end of the hall between the statues of General Ethan Allen of Vermont and General Peter Muhlenberg of Pennsylvania.

The Red Men's convention brought some of the grafters who always flock to any town where any gathering occurs. Among them was a woman passing around engraved invitations to people to assist her in procuring an artificial limb. A husky looking Red Man, claiming to hail from Osage, Kansas, and to be hungry and looking for work, was also trying to touch up the brethren.

In the write-up of Brainerd's mercantile interests in the special edition issued Tuesday, THE DISPATCH omitted the firm of Soloski & Levant among the firms dealing exclusively in clothing and shoes. In a work of this kind involving a mention of practically all the business firms in the city these errors will occur, and without any intention on the part of the publishers or the copy writer, and it is as annoying to them as it is to the firm omitted.

State Gets Land.

Chicago, Aug. 11.—Inquiry into the title of "made lands" along the shore of Lake Michigan and the banks of the Chicago river has been begun by a legislative committee appointed to determine what right the state possesses. Tracts in Evanston and near Jackson park were discussed, and the right of the state to a ninety foot strip along each bank of the river was argued. The lands in question are valued at more than \$2,000,000.

TESTIMONY OF MRS. SUTTON

Feature of Hearing Before the Board of Inquiry.

RECORD OF SECRET SESSION

Reading of It in Court Causes a Sensation—Letters of the Witness That Were Read at Closed Session on Saturday Are Made Public—Express Mrs. Sutton's Belief as to Events Incident to Her Son's Death.

Annapolis, Md., Aug. 10.—The feature of the day's meeting of the board of inquiry which is investigating the death of Lieutenant James N. Sutton, U. S. M. C., was the testimony of the dead officer's mother. A sensation was also caused by the reading of the record of last Saturday's session which had been conducted in secret.

No sooner had Mrs. Sutton taken the stand to testify than Major Leonard, judge advocate, commanded that the letters of Mrs. Sutton read at the closed session on last Saturday be read in public, along with the record of the whole meeting.

"We have been accustomed to holding star chambers sessions," declared the judge-advocate, "and besides there are sundry other mothers who are entitled to know why their sons are accused of crime."

A wrangle ensued. Lawyer Davis, counsel for Mrs. Sutton, did not offer an open objection to the reading of the letters, but he argued against the necessity of making them known, inasmuch as they had no actual bearing on the evidence in the investigation. The public reading at this time would merely be catering to a purulent curiosity, he contended. The letters were four in number, and they were written to H. M. Swartz, a clerk in the marine corps paymaster's office in Washington, D. C., by Mrs. Sutton.

Conspiracy Against Sutton.

Eventually the court decided that they be read. In the letters Mrs. Sutton in a dramatic manner declared that her son's companions conspired at Carvel Hall to beat the young lieutenant; that Lieutenant Utley was the prime mover; that he, Adams and Osterman set upon Sutton and beat him until he was almost dead and that her son was shot to cover the alleged vicious attack upon him.

The letters, summed up briefly, might be described as the expression of Mrs. Sutton's fixed beliefs as to the events incident to her son's death, entirely aside from the questions of the adequacy on the ground for such beliefs. They contained little that was really new, though showing very bitter feeling on her part against a number of the officers of the marine corps and bristled with condemnations of Sutton's brother officers and the findings of the first inquest relative to Sutton's death. Yet, as was true of her verbal testimony, they showed Mrs. Sutton to be very much in earnest and strong in her convictions. Under the cross-examination that followed, Mrs. Sutton bore herself extremely well.

Three more witnesses were summoned. One of them is a resident of this city, Charles H. Russell, another is Corporal Todd, corporal of the guard on the night of Lieutenant Sutton's death, and who was present in the office of the officer of the guard when Lieutenant Utley reported to Lieutenant Bevan according to the testimony that Lieutenant Sutton was creating trouble in the camp. The third witness is a Washingtonian whose name was not divulged at the session of the court.

LAND DRAWINGS ARE BEGUN

Oregon Man Wins First Prize at Couer d'Alene.

Coeur d'Alene, Ida., Aug. 10.—Three little girls plucked out many titles to government farms from a pile of 105,000 yellow envelopes representing applications for land in the Couer d'Alene Indian reservation. Thus began the great drawing for claims in the Flathead, Couer d'Alene and Spokane districts. Five hundred names in all were drawn out after two hours' work. Twenty-five hundred more must be chosen.

Several hundred people stood around the platform on which Judge Witten of Washington, D. C., formally opened the drawing. When little Miss Helen Hamilton picked the first lucky envelope from the mass and handed it to Judge Witten and the name of Isador Selig of Myrtle Creek, Ore., was read, the crowd showed great interest.

Selig, the winner of the first prize, was not present at the drawing. The names of John Hedmark and Charles G. Cromwell, both of Spokane, then followed in the order named.

Within Enlarged Homestead Act.

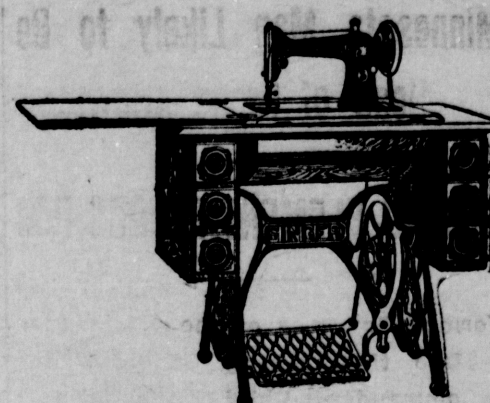

Washington, Aug. 10.—Acting Secretary of the Interior Wilson has designated 1,658,640 acres more of land located in the northwestern part of Montana along the Missouri river near Fort Benton as coming within the enlarged homestead act. This makes a total up to date of 25,466,200 acres so designated in Montana.

Legislation for the Order and Other Important Matter Discussed.

VISITORS ENJOYED THEMSELVES

Ball Given Tuesday Night At Gardner Hall--Social Session Tonight.

Tuesday afternoon's session of the great council was devoted almost entirely to matters of legislation for the order, and several important matters were disposed of. The proposition for semi-annual election of chiefs of tribes met with defeat and the plan of semi-annual sessions of the great council as also defeated.

There was a good sized parade of Red Men in the evening, headed by the Brainerd City Band. After the parade there a grand ball at Gardner's hall, given by Red Cloud Tribe to visiting Red Men. No one but Red Men and their ladies and members of the Degree of Pocahontas and their escorts were admitted to the ball, but even then the hall was well filled and a very pleasant evening was enjoyed. A bountiful supper was served by the members of the Council, Degree of Pocahontas.

A pleasant feature of the day for the ladies was the lawn social given in honor of the visiting ladies at the home of Mrs. Susan Whitford, 1024 South Sixth, the ladies of Iola Council being hostesses.

The great council this forenoon adopted a rule that hereafter its sessions would be held in the twin cities, St. Paul, being selected as the place of the next session. Hereafter the meetings will be held in Minneapolis on the 15th numbered years and in St. Paul on the even numbered years.

There was a committee to codify the laws of the great council appointed consisting of Brothers F. J. Hebl, St. Paul; P. J. Sieberger, St. Cloud; Thos. McKeon, Duluth.

The following resolution was unanimously adopted:

Resolved that we, the great chiefs and representatives in council assembled, tender our sincere thanks to Red Cloud Tribe No. 23, and to Iola Council, No. 15, Degree of Pocahontas, for the splendid entertainment and courteous treatment accorded us while in their midst, to Col. C. D. Johnson for his felicitous and cordial welcome and to the newspapers of Brainerd for the uniform courtesy shown in reporting the proceedings of this great council.

Tonight there will be a social session of the Red Men and Iola Council will exemplify the work of the Degree of Pocahontas for the edification of the visiting members of that order.

A Hurry-Up Medicine

Every housekeeper recognizes the need of effective remedies to be used in emergencies--when something must be done right away. Such a remedy is **Foley's Kidney Remedy**, for sprains and bruises, for strained muscles and the aches and pains resulting from blows and falls. Burns and cuts are instantly relieved by it and helped to heal. Its mission of mercy began seventy years ago. It is used in all countries and millions of bottles sold annually. There is but one **Foley's Kidney Remedy**. Have you seen the new large 50c size?

Just the time to purchase one of those summer suits reduced to **\$11.25 and \$15.75.**

These garments all sold formerly at prices ranging from **\$16.00 to \$25.00** are wonderfully light in weight and really "everlasting" in wear.

They're all either wool or silk and wool--perfect fabrics in both weave and design.

OUTING

Ruey Carter and family from Silver Creek, Wright county, visited the Big Store Saturday. They are camping in W. H. Andrews' house at Emily.

Services were held in the pavilion Sunday afternoon by Rev. Charles F. Davis, of Brainerd. Quite a large crowd attended. The audience was favored with a number of solos by Elder Davis. A subscription of \$107 was started towards the building of a church.

Blueberry "pickers" are still roaming the country. The blueberry yield seems to be an unusually fine grade. Don't answer the telephone unless your "call" is rung.

Mrs. Effie Doane McKidder, who has been visiting with Mrs. John Thomas, went to Mrs. Ora Edick's, of Emily.

Mail is now scheduled to leave Outing for Emily at 11:30 p. m. and arrive in Outing from Emily at 4 p. m., Tuesdays, Thursdays and Saturdays.

Emily was again "turned down" at another game of ball with Outing Sunday. Don't be discouraged though, even if you haven't "slush" and "brush" to practice in.

Chas. Senge came home Thursday night from Iowa, where he has been working all summer constructing ditches. He was met in Pine River by his wife.

Dr. Boxell and his party, who have been camping on the shores of beautiful Crooked lake, left Saturday morning for St. Paul. They report a most pleasant time and a determination to return next season.

John Lambert and wife, of Emily, and their daughter Florence and husband and friends, from Minneapolis, were "doing" Outing Friday.

TWENTY YEARS AGO

Brainerd is without a dog killer. The fool-killer has also forgotten to make his accustomed rounds.

C. L. Spaulding has been appointed postmaster to succeed J. H. Koop who resigned and whose term would have expired in a few months. The only candidate against Mr. Spaulding was M. MacFadden.

The high school building is to be conducted with the sewer system at once. It is a step in the right direction.

Dr. Courtney has been enjoying a visit from his brother Albert.

Peter Mertz is conductor on the motor line in Spokane Falls.

Judge Fleming united Jerry Crowley and Miss Frances Snyder in marriage on Saturday, Aug. 3d.

Geo. Smith, brother of the Smith boys of this city, who have been afflicted with typhoid fever, arrived from Sault Ste. Marie on Tuesday.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking **Foley's Kidney Remedy**. This great remedy stops the pain and the irregularities, strengthens and builds up these organs and there is no danger of Bright's disease or other serious disorder. Do not disregard the early symptoms. H. P. Dunn. mwf

Taft to Visit Milwaukee.

Milwaukee, Aug. 11.--President Taft will be Milwaukee's guest on Sept. 17 from 5:05 a. m., until 11:40 a. m. Word of the change in itinerary so as to include a stop at Milwaukee on the trip from Chicago to Minneapolis, has been received here. It is understood that an auto parade will escort the chief executive to the state fair grounds, where he will deliver a short address.

Investigation of Murder Mystery Without Results.

Detroit, Aug. 10.--The investigation of the mysterious death of Mrs. Martha Galahn, whose body was found in Hamtramck Sunday in a clump of bushes, yielded no tangible clues. CAMPING PARTIES STILL IN VOGUE

Many Are Planning to Visit the Minnesota State Fair in This Fashion

Camping parties promise to be more of a vogue than ever this year at the State Fair grounds, and many are the inquiries in reference to it received each day by Secretary Cosgrove.

Mrs. J. H. Whittemore, of Detroit is planning to attend the fair with a club of eight boys, each about 12 years old, and promises to make use of the camp grounds just north of the Poultry building, which were so popular last season.

In response to this and many other inquiries, Secretary Cosgrove advises all those who contemplate using the camp grounds to have the members of the parties bring their own bedding. The purchase of supplies is a comparatively simple matter, as there are grocery stores within a few blocks of the fair grounds and dozens of teams delivering groceries and supplies of all kinds on the grounds each day.

As was the case last year, the board of managers regulates the rental charges to be made by the various tent and awning concerns which will be doing business on the grounds, and the schedule of these prices, which is designed to prevent exorbitant charges can be found on page six of the premium list, which will be mailed to any one upon application.

As usual, there will be some 20 acres devoted to the "dwellers in tents" at the State Fair this year, and those camping on the grounds will be able to buy a season ticket admitting them each day for \$2.00.

THE FATNESS OF HEALTH

Samose Fills Out the Curves and Makes Thin People Fat

Perfect health and good, solid beautiful flesh can only come through the use of Samose, the remarkable flesh-forming food.

This makes the thin and scrawny, plump and robust; it mixes with the food so that the elements that make solid bone, firm muscle and good flesh, are thoroughly assimilated and retained in the system.

There are thousands of unhappy, nervous thin people who would look and feel entirely different if they were only fat and plump. Let them use Samose and they will soon notice remarkable results.

These statements are confirmed by H. P. Dunn's offer to refund the money to anyone buying and using Samose who does not gain in weight as promised. The risk is all his. The thin and scrawny can buy Samose at Druggist Dunn's store with the full knowledge that if it does not increase their fat it will cost absolutely nothing.

A MEASURE OF MERIT

Brainerd Citizens Should Weigh Well This Evidence.

Proof of evidence lies in the evidence. Convincing evidence in Brainerd, is not the testimony of strangers, but the endorsement of Brainerd people.

That's the kind of proof given here--The statement of a Brainerd citizen. Alfred Towers, living at 596 First Avenue N. E., Brainerd, Minn., says: "The medicines and physicians' prescriptions that Mrs. Towers used in trying to eliminate a bad case of kidney complaint, might just as well have been thrown away, in fact, they did more harm than good. Several years previous she had used Doan's Kidney Pills for a short time and the benefit had been very gratifying. Deciding to again give this remedy a trial, she procured a box from H. P. Dunn's drug store, and began its use in strict accordance with the directions. The improvement that was noticeable in her condition in a short time was nothing less than wonderful and it did not require a lengthy use to effect a complete cure." (From statement given Nov. 29, 1904.)

On Sept. 2, 1903, Mrs. Towers confirmed the testimonial her husband gave in her behalf in the following words: "The testimonial which Mr. Towers gave in favor of Doan's Kidney Pills in 1904 was absolutely correct. Although kidney trouble has never returned in my case, I have appealed to Doan's Kidney Pills on some few occasions and they have served to keep me in a healthy condition."

THE END NOT YET IN SIGHT

Impossible to Force Conclusion of Strike in Sweden.

Stockholm, Aug. 11.--It still is impossible to foresee the end of the strike which has been in progress for some weeks. However, it is having little influence on the social life of the capital. Perfect order is being maintained and no sign is visible of the special measures that have been taken to prevent outbreaks, though it is known that the government is keeping extra police and troops close at hand in case of an emergency.

Food again is plentiful and prices are becoming normal. There has been no serious decline in the prices of securities on the bourse. Street car and cab traffic in the city continues, the municipality having ordered the cabmen to resume work or forfeit their licenses. A strike of the railway men is improbable, as the men fear that in case they go out they will lose their rights to pensions. The theaters are filled nightly and the cafes and restaurants are being well patronized.

From many industrial centers throughout Sweden come reports of more or less complete resumption of work. Most of the newspapers are issuing small sized sheets. There was a stormy meeting of the railway, telegraph and telephone employees concerning the strike, but its result is being kept secret. The financial weakness of the strikers' unions makes the success of the present movement problematical.

Wave of Efficiency Tests Started Under Secretary Nagel.

Washington, Aug. 10.--The wave of efficiency tests which started under Secretary Nagel in the department of commerce and labor, has struck the treasury department, where it is to be even more sweeping than in other departments.

Before leaving the city for his summer home in Dublin, N. H., Secretary MacVeagh appointed the three assistant secretaries as a committee to work out the reforms. Assistant Secretary Norton was made chairman. Cards have been sent to every employee and to every chief of a division. Each chief will make a report concerning his employees and each employee will make a report concerning himself or herself. The cards cover a host of subjects, including the quantity and quality of work performed by each employee and the character of appointment under which one labors.

FIGHT IN THE CONVENTION

Printers Wrangle Over Credentials of a Delegate.

St. Joseph, Mo., Aug. 11.--A lively fight in the International Typographical union convention, which is holding its fifty-fifth annual session in St. Joseph, was precipitated over the seating of Charles Carroll as a delegate from Providence, R. I. A protest had been filed by John F. Lennon, who alleged that the election of Carroll was irregular.

The opposition to Carroll was taken up by Delegate Alexander McLean of Waterbury, Conn., and S. W. Gamble of New York. The effort to bring other members of the Carroll family into the controversy was shut off by President Lynch. Carroll was seated.

The women's auxiliary to the International Typographical union is also in session here. Mrs. Gilbert R. Jones, president of No. 41 of Chicago, which recently had its charter revoked, is fighting for reinstatement. If she cannot obtain this in the auxiliary, she declares she will take the fight to the floor of the main convention.

Nominations for the next place of meeting will be made today and the selection Thursday morning. There are three candidates, Atlanta, Salt Lake City and Minneapolis, with the last named city apparently in the lead.

TAFT'S IDEA OF A VACATION

Is to Do the Same Thing Over Every Day.

Beverly, Mass., Aug. 11.--President Taft has declared that his idea of an ideal vacation is to do the same thing over again every day. Consequently he played golf in the morning, attended to a little official business after luncheon and late in the afternoon had a long ride with Mrs. Taft. The president is a stickler for system and he is applying it to his vacation. The only change is that some days he plays good golf and on other days he does not.

Thaw Claims That Jerome Has Proven Him to Be So.

White Plains, N. Y., Aug. 11.--Reasserting his sanity, Harry K. Thaw issued a statement reviewing the evidence given in the recent hearing on his application for release from the Matteawan asylum. In the course of his argument to sustain his contention that he is sane, Thaw said that, according to the alienists, District Attorney Jerome had proved him to be sane "forty-five times over" in his long questioning.

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better. The cause of the wrong treatment, but be such, prescribes a proper medicine like **Dr. Pierce's Favorite Prescription**, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured." Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic. As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency. Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

M'GEE PRAISES OIL MAGNATE

Regards Head of the Standard Oil Company as a Man Among Millions and Sees No Reason Why a Million Other Men Could Not Be as Successful as He—Discusses Value of Water.

Spokane, Wash., Aug. 11.—John D. Rockefeller as a philanthropist and as an example for the nation to copy, was held up to the consideration of the National Irrigation congress by W. J. McGee, secretary of the inland waterways commission of Washington.

Dr. McGee frankly said he admired Mr. Rockefeller. He regarded the Standard Oil magnate as a man among millions and saw no reason why a million other men could not be as successful as he.

Dr. McGee was speaking of water as a thing which in value to the human race in proportion to all other necessities is 100 to 1. He urged the conservation of water on power, irrigation and transportation.

"And, yet," said he, "with water thus valuable and necessary to the human race, John D. Rockefeller charges less for a gallon of oil after it has passed through many processes than a spring water concern does for a gallon of mineral water that has not been treated in any way."

"I regard Mr. Rockefeller as at once a generous public benefactor and a wise and careful business man. He has had all the opportunity in the

HEAT CLAIMS MANY VICTIMS

Five Persons Succumb to Hot Weather in New York.

HOTTEST DAY OF THE YEAR

Official Thermometer Registers Nine ty-three Degrees in Gotham—Hot ter at Coney Island Than in the City Itself—Six Deaths Due to the Excessive Heat in Philadelphia.

New York, Aug. 10.—The thermometer of the local weather bureau registered 93 degrees at 3 o'clock in the afternoon, the hottest day of the summer, and within three degrees of the hottest August day ever recorded here by the department.

Parks, recreation piers, city docks and other open spots were crowded at night with sleepers, watched over by the police, and the temperature was still above 80.

Hundreds of thousands sought Coney Island and the beaches for relief, but by an irony of nature it was 95 degrees at Coney Island when it was 93 in New York. Prostrations were continually being reported by the city hospitals and five persons—four infants and one old man—died from the heat at the seashore.

Philadelphia, Aug. 10.—The mercury in the official thermometer reached 98 degrees here, while many instruments in the streets showed a temperature above the 100 mark. Six deaths were due to the excessive heat.

Throughout the state the suffering from the heat and the lack of rain has been great. Fierce forest fires are raging in Lycoming county.

SIX OVERCOME BY THE HEAT

But None of the Printers Are in a Serious Condition.

St. Joseph, Mo., Aug. 10.—The fifty-fifth annual convention of the International Typographical union has been organized here. The delegates and visitors were taken on a special train to Waterworks hill for an outing. On account of the extreme heat there were half a dozen prostrations among the visitors, but none of the cases were serious. Minneapolis seems to be in the lead at this time over Atlanta and Salt Lake City as the place of next meeting.

YOUNG MAN ELECTROCUTED

Plunges From Bridge Into the Mississippi River.

Winona, Minn., Aug. 10.—A human torch, flaming for an instant along the highest skyline of Winona's mammoth high steel bridge, swayed to the edge of the very apex of that structure, plunged headlong, trailed by blue sheets of fire, through 140 feet of space, and sank with a hiss into the Mississippi.

Hundreds of people, swarming the levee parks, watched in temporary silence this rocketlike termination of the frightful tragedy far up beyond them on the netted steel, and men gasped in horror, women fainted and little children ran shrieking through the bushes into the streets of the town.

It was Ernest Lampe, nineteen-year-old Winona painter, lone support of his mother and her many children, who dared to feel along the dizzy tops of steel with pall and brush, collided with uninsulated highpower wires, carrying 6,000 volts into this city from the dynamos of La Crosse, and ignited with a flash into a veritable pillar of fire.

Miss Johnson was caught in the undertow and when Engelbracht went to her relief both were swept off their feet in the breakers.

Shot by His Brother.

St. Joseph, Mo., Aug. 10.—James Lindsay, a stock yards employe, was fatally shot by his brother, Clarence Lindsay, in a quarrel at their home. The load from a shotgun entered his left eye. On trying to prevent the shooting the aged mother of the brothers received a number of shot from the gun. Clarence Lindsay surrendered to the police.

THIRTY THOUSAND IN SALT LAKE CITY

Utah's Metropolis Filled With Grand Army Veterans.

Salt Lake City, Aug. 10.—The first day of the forty-third national encampment of the G. A. R. found 30,000 veterans and visitors quartered in this city with the prospect of having their number increased to 50,000 by Wednesday.

Drum and fife corps parade the streets and at the various headquarters bands furnished martial music.

Of the fourteen past commanders-in-chief now living, five are in attendance. They are General S. S. Burdett of Washington, D. C.; Eli Torrance of Minneapolis, John R. King of Baltimore, Corporal James Tanner of Washington, D. C., and General Charles G. Burton of Nevada, Mo.

A reception in honor of Commander-in-Chief Nevius and staff was given by the Woman's Relief Corps. Three thousand guests were present.

For commander-in-chief, former Governor Van Sant of Minnesota and W. L. Ketcham of Indiana continue to be the active candidates. Friends of L. T. Dickerson of Illinois urged him to seek the honor, but he declined. In consequence a sentiment in his behalf for 1911 is being developed.

Every state of the late Confederacy has a delegation here.

MRS. CASTLE OUT ON BAIL

Her Brother Finally Finds a Bondsman.

New York, Aug. 10.—Mrs. Mary Scott Castle, the erstwhile actress from California, who dented William B. Craig's fountain pen and slightly wounded the lawyer when she fired a 22-caliber revolver at him in the Waldorf-Astoria, was released from the Jefferson Market prison under \$3,000 bail after six days of imprisonment. After scurrying about all day with little success, Mrs. Castle's brother, Captain Henry Harrison Scott, U. S. A., who came up from the South to aid her, finally obtained a bondsman. He is David Manus, a Sixth avenue tailor, who gave property in Brooklyn as security.

WILL RESIST HER DEMANDS

Thaw Family Will Not Make Settlement With Prisoner's Wife.

New York, Aug. 10.—Statements made at Poughkeepsie by Charles Morschauser, attorney for Harry K. Thaw, indicate that the Thaw family will oppose any demands for a settlement made by Evelyn Nesbit Thaw. Mr. Morschauser said that the young wife was demanding a very large sum—somewhere around \$500,000.

"But we are not at all excited," he said, "by her oft repeated divorce threats. She has been negotiating with District Attorney Jerome and alienists and siding them in the hearing at White Plains, therefore she can look to them rather than to the family for aid."

Rumor of Murder.

St. Paul, Aug. 10.—South St. Paul police are unable to decide whether they have a real murder mystery on their hands or not. Rumors are persistent in the packing suburb that a Serbian laborer was killed there by a number of his own countrymen in a quarrel nearly a week ago and that his body was spirited away by the murderers, who are said to have buried it in the basement of an old tenement house.

Results in the Lowering of the Grecian Colors—Greek Government Hands Turkish Minister a Formal Reply to the Porte's Note Regarding the Annexation Agitation in Crete.

Canea, Island of Crete, Aug. 10.—The Greek flag which was run up over the fortress and the Cretan military barracks here on July 27, the day after the evacuation of the island by the international troops, was lowered as a result of the protest of the four protecting powers.

Athens, Aug. 10.—The Greek government has handed to the Turkish minister a formal reply to the porte's note of several days ago, which asked Greece to express her disapproval of the annexation agitation in Crete and formally to declare that she had no ambitions regarding the island.

The reply is a lengthy document. It protests formally against the complaints contained in the Turkish note and gives instances of Greece's constant endeavor to maintain frank and friendly relations with Turkey and to draw closer the bonds uniting the two countries. It recalls the enthusiasm with which the Greek element in Turkey worked for the triumph of the constitutional regime there and points out that had Greece cherished the designs attributed to her she would have tried to profit by the trials and difficulties against which the new Turkish government has been contending. Instead, the note declares, Greece has done and still wishes to do all in her power for the appeasement of Turkey and for peace.

BIG STRIKE MAY COLLAPSE

Indications Are That Trouble in Sweden Soon Will End.

Stockholm, Aug. 10.—The streets of Stockholm present a livelier aspect than on any day since the general strike began. Many carts and street cars are plying their trade, despite the threats of the strikers that they would stop all traffic. King Gustave drove through the city, passing before the strikers' headquarters. He was without an escort.

The gas and electric plants are working without interruption and it seems doubtful whether the employees of the railroads will join the movement. Rumors are again in circulation concerning a probable collapse of the strike, the workmen being dissatisfied with the strike and the methods employed by their leaders in carrying it on. In many instances the men are refusing to obey orders to go out. In any case the strike fund is not strong enough to support the movement longer than a fortnight without causing great distress.

SETTLEMENT NEAR AT HAND

Believed Strike Will Be Averted in Chicago.

Chicago, Aug. 10.—Diplomatic negotiations marked the progress of the street railway situation here. While no definite proposal of peace was accepted on either side the several conferences which were held during the day justified the conclusion that a settlement of the controversy without a strike is only a few days off.

The union leaders refused the first offer made by the railway officials—that of a graded scale giving the 30 cents an hour maximum to those men who have been in the service fifteen years. The union men then put up the proposition of an increase of 1 cent an hour at once and an increase of 2 cents an hour next year, and this proposition now is being considered by the presidents of the two companies.

Five Hurt in Wreck.

Creston, O., Aug. 10.—Five persons were injured on a passenger train on the Wheeling and Lake Erie railroad when the train was derailed at Burbank, three miles west of here. The entire train left the track, the engine, tender, baggage and mail cars overturning and a passenger coach containing 110 persons toppling into a ditch.

Prohibition in Alabama.

Montgomery, Ala., Aug. 10.—Governor Comer signed the Carmichael prohibition bill in the presence of Mrs. J. B. Mell, president of the Alabama division Women's Christian Temperance Union, and other women. The Carmichael bill prohibits the sale of any liquor containing more than half of one per cent of alcohol.

Archbishop Keane to Retire.

St. Louis, Aug. 10.—That Archbishop John Joseph Keane of the Roman Catholic archdiocese of Dubuque is to retire from active duty Aug. 18, when a coadjutor is to be recommended, is the official news received here from St. Paul. Ill health, it is stated, is the cause of the venerable prelate's action.
